To the FCC Chairman:

I am no lawyer, Sinclair's plans to air the 90 Kerry program seems to be a clear violoation of the rules for equal time, not to mention a possible viloation of campaign finance rules. Why is it too much to ask that every person be allowed to vote their conscience in a free and fair election? What has happened to our democracy, and what will you do to protect the public trust? People who borrow the public airwaves should not be allowed to use them to forward their own political views. Please do not allow this to happen. Thank you.

Shannon Thomas
